**Introduce a targeted or differential rate on the District Rooding Rate -**

**Which option do you prefer? :**

Option 1

**My comments on this proposal**

I think that the district council has not thought about the overall impacts on what implementing this new rate could do to companies/families and the environment. There are many forestry companies in the area which have been paying rates for many years and of which the council was suppose to be looking after the road for. The way the district council is dealing with doesn't think about the families impacted at all.
