Option 1

**My comments on this proposal**

We are forest harvesting contractors who have had and continue to have a number of our entities working (logging) in the Waitomo district. One of which is currently working on Mapara South Rd. With large volatility in the market. I am concerned an additional charge in roading rates may trigger landowners to turn their back on Forestry. If this would be the case the district would lose a substantial amount of income through small and large business, communities and jobs. Our operations alone employ local, rent properties to staff out of town and engage a large number of service providers from the district. I do not believe the proposal outlines the upside revenue streams well enough or discusses the fact rates are paid for 25 plus years by forest owners with little to no traffic use. I would of been happy to speak on my submission. Unfortunately I am out of the country that week. Regards Blair
