Having for a good part of my life been a small shareholder with Greenplan Forestry, now in my 70's I was looking forward this year to a final return on forestry unit 45 (Greenplan) on it's harvesting. Now you propose to increase the forestry road rate to a ridiculous, unreasonable amount with very short notice, obviously to raise your roading funds in time for Greenplan's next harvest. You set the precedent nation wide which will potentially destroy the NZ forestry industry. And I as a small shareholder I receive next to nothing for my years of investment. I do hope you will consider at least reducing your unreasonable and unfair road rates for forestry in your area.

Regards  
Philip Webb
